

## MONTHLY BULLETIN OF UNEMPLOYMENT AND SICKNESS BENEFITS STATISTICS

SEPTEMBER, 1945.

EVENING PAPERS : WEDNESDAY, 31st OCTOBER, 1945.  
 MORNING PAPERS : THURSDAY, 1st NOVEMBER, 1945.

This summary is the first to be issued by the Acting Commonwealth Statistician as to numbers of persons receiving benefits under the Unemployment and Sickness Benefits Act, 1945, which came into operation on 1st July, 1945. The summary covers the first three months' operations and future summaries will be issued at monthly intervals.

The Act provides for the payment of benefit to persons whose normal earnings have been interrupted through unemployment or temporary incapacity. The Act also provides a third class of benefit - designated Special Benefit - which gives a measure of assistance to those persons who on account of some special circumstance, cannot comply with the statutory requirements relating to unemployment or sickness benefit and who are prevented from earning a livelihood and are in need.

The numbers of recipients of benefit do not embrace the total unemployment and sickness in the community. Unemployment or sickness of less than seven days duration is not covered due to the provision in the Act of a "waiting period" of this length of time during which no benefit is payable. Permanent incapacity is not included as this is covered by the Invalid and Old Age Pensions Act. The application of a "means test" excludes another group from benefit. Some persons entitled to benefit may not yet be aware of the provisions of the Act.

The total number of benefits granted and discontinued during the period 1st July to 29th September, 1945, and beneficiaries remaining on benefit at 29th September, 1945, in each class of benefit is shown in the following table:-

AUSTRALIA : Claims admitted, etc., from 1st July, 1945 to 29th September, 1945.
